TO WHOM IT MAY CONCERN

School of Life Sciences, Jawaharlal Nehru University, New Delhi has been providing M.Sc in Life Sciences since 1975-76 onwards. During the M.Sc programme, the students go through compulsory theory courses such as Animal Physiology, Plant Physiology, Animal Development Biology, Plant Development Biology, Biochemistry, Cell Biology, Biophysics and Structural Biology, Genetics, Molecular Biology, Immunology, Microbiology, etc alongwith hands on practical training. Further, the students also gain theoretical knowledge in other optional courses of Life Sciences depending on their interests. Students also undertake two semesters-long research dissertation on the above mentioned areas of Life Sciences research.

Hence, students graduating from SLS with an M Sc degree in Life Sciences should receive due considerations for higher studies and job opportunities in the above mentioned subjects.
